## Segment Overview

### Electronic Brokerage

Electronic brokerage segment income before income taxes increased 13% to \$331 million in the quarter ended September 30, 2019, compared to the same period last year. Net revenues increased 14% to \$506 million on higher net interest income and commissions revenue, partially offset by lower other income.

Commissions revenue increased 12% from the year-ago quarter on higher customer trading volume in options and futures, and higher commissions per share in stocks. Net interest income increased 20% as average customer credit balances and benchmark interest rates increased from the year-ago quarter. Pretax profit margin was 65% for the quarter ended September 30, 2019, down from 66% in the same period last year.

Customer accounts grew 16% to 666 thousand and customer equity increased 10% from the year-ago quarter to \$156.6 billion. Total DARTs for cleared and execution-only customers increased 13% to 859 thousand from the year-ago quarter. Cleared DARTs increased 12% to 777 thousand from the same period last year.

### Market Making

Market making segment income before income taxes increased 14% to \$8 million in the quarter ended September 30, 2019, compared to the same period last year, primarily due to higher net interest income from the remaining operations.

### Corporate

For the quarter ended September 30, 2019, we recognized a mark-to-market loss of approximately \$13 million in our strategic investment in Up Fintech Holding Limited (“Tiger Brokers”). For the nine months ended September 30, 2019 we recognized a net mark-to-market gain of \$16 million on this investment.

### Effects of Foreign Currency Diversification

In connection with our currency diversification strategy, we have determined to base our net worth in GLOBALs, a basket of 14 major currencies in which we hold our equity. In this quarter, our currency diversification strategy decreased our comprehensive earnings by \$75 million, as the U.S. dollar value of the GLOBAL decreased by approximately 0.84%. The effects of the currency diversification strategy are reported as components of (1) Other Income in the corporate segment and (2) Other Comprehensive Income (“OCI”).

### Regulatory Matters

The Company is subject to regulatory oversight and examination by numerous governmental and self-regulatory authorities. The Company is currently providing information to certain of such authorities, including FINRA, the SEC, the CFTC and the United States Department of Justice, and cooperating with those authorities. The Company believes that the regulators are focused on compliance practices, including anti money laundering and Bank Secrecy Act practices. The Company periodically reviews these practices to make them more robust and to keep pace with changing regulatory standards, and the Company has been enhancing and augmenting its procedures and personnel in these areas over the past several years. While the outcome of the examinations and inquiries currently in progress cannot be predicted, the Company does not believe that they are likely to have a materially adverse effect on the Company’s financial results.
